Education

B.S. Computer Science | State University of New York (SUNY)

Graduation: May 2026 | GPA: 3.8/4.0

Relevant Coursework: Data Structures, Algorithms, Operating Systems, Database Management, Artificial Intelligence, Software Engineering.

Academic Projects

Library Management System (Java, SQL)

- * Developed a desktop application using Java Swing for the GUI and MySQL for backend storage.

- * Implemented user authentication and role-based access control (Admin vs. Student).

Weather Dashboard (React, Node.js, REST APIs)

- * Built a web app fetching real-time weather data from the OpenWeatherMap API.

- * Utilized React hooks for state management and CSS Grid for a responsive layout.

Skills

Languages: Java, Python, JavaScript, HTML/CSS

Tools: Git, VS Code, Postman, Linux CLI
