

Sarah Jenkins | Senior Staff Software Engineer
s.jenkins.eng@email.com | 650-555-7788

Summary

14+ years of software engineering experience focusing on scalable backend systems, distributed databases, and engineering leadership. Proven track record of mentoring senior engineers and driving technical vision across multiple departments.

Professional Experience

Senior Staff Engineer | GlobalFintech Solutions | 2019 - Present

- * Spearheaded the redesign of the core transaction processing engine, increasing throughput from 1,000 to 50,000 transactions per second.

- * Chaired the internal Architecture Review Board, establishing coding standards and microservice boundaries for an engineering organization of 300+ people.

- * Mentored 6 engineering managers and 15 senior developers.

Lead Backend Engineer | SecurePay | 2013 - 2019

- * Built the initial fraud detection pipeline using Apache Spark and Scala, reducing false positives by 45%.

- * Scaled the backend infrastructure to support a 500% growth in user base over three years.

Software Engineer | TechStart | 2010 - 2013

- * Developed RESTful APIs in Ruby on Rails for an early-stage e-commerce platform.
